

Registrations by Design, Inc. offers comprehensive regulatory consulting services to the pesticide and fertilizer industries. We are a small, family business – founded in 1996. Our current staff of 2 full-time and 3 part-time employees includes three of our founding members.

- Rebecca (Becky) Horton – owner, president. 20+ years experience in federal/state registrations for pesticides, fertilizers and plant/soil amendments; associated re-registration/certification and permitting processes; label development, typesetting and design.
- Sarah Kuetemeier – corporate secretary, regulatory coordinator. 10+ years experience in federal/state registrations for pesticides, fertilizers and plant/soil amendments; 6(a)(2) adverse effects reporting.
- Carolyn Noell – registrations assistant. 10+ years experience in federal and state registrations for pesticides, fertilizers and plant/soil amendments; misc. state sales and tonnage reporting.
- Andrea Handy – registrations assistant. 3+ years experience in federal and state registrations for pesticides, fertilizers and plant/soil amendments; 6(a)(2) adverse effects reporting; misc. state sales and tonnage reporting.
- Gretchen Moser – accounting. Gretchen is our latest and a most welcome addition -- joining us in 2009, and currently in training to assist with 6(a)(2) adverse effects reporting.
