

QUALITY ASSOCIATES INCORPORATED

[Quality Associates, Inc.](#) (QAI) was established in 1986 to provide quality assurance and regulatory services to the pharmaceutical and agrochemical industries. A corollary service offering was the archiving of scientific records, so it was not long before QAI developed strong capabilities in electronic document management.

Today QAI maintains a broad client base that includes federal and state agencies, chemical and manufacturing companies, financial and accounting firms, law firms, and medical and research facilities.

Currently, QAI provides services in these areas: Quality Assurance & Scientific Support, Information Services, and Archiving.

- Our Information Services Division provides clients with cutting-edge solutions to document management issues in an ever-changing marketplace. While specializing in the conversion of documents and other media to electronic formats, we also offer a full range of document scanning/imaging products (hardware and software) and services (including integration services and training).
- Our [Quality Assurance & Scientific Support Division](#) provides consulting services to regulated companies in the areas of Good Laboratory Practices (GLP) and Good Clinical Practices (GCP). The Division specializes in quality assurance, and also provides scientific support for regulatory studies.
- Our state-of-the-art [archive](#) facility was built to assure the safe and confidential integrity of clients' paper documents, electronic media, and specimens under the care of trained GLP archivists.
